

Join the conversation and shape the future of RT data in Canada!

PAN-CANADIAN CANCER DATA STRATEGY:

# PAN-CANADIAN RT DATA HARMONIZATION PROJECT

## Webinar

### Choose Your Session:

#### West Session

Tuesday, June 10

12:00–1:00 PM PST | 3:00–4:00 PM EST

#### East Session

Friday, June 13

1:00–2:00 PM AST | 12:00–1:00 PM EST

Attend the session that best fits your schedule.

### WHAT YOU'LL LEARN

- How the Pan-Canadian Health Data Strategy is modernizing the collection, sharing, and use of health information
- How national initiatives are advancing data-informed cancer care across Canada
- Lessons from early adopters on the feasibility and scalability of RT data harmonization (TG-263/O3 implementation)
- Opportunities for collaboration and sustainability planning

### WHO SHOULD ATTEND

- Radiotherapy providers
- Cancer systems leaders & administrators
- Participants in Priority 2 projects of the Pan-Canadian Cancer Data Strategy
- Anyone interested in enhancing data linkages and collaboration

### WHAT YOU'LL WALK AWAY WITH

- Connections with like-minded clinicians and health system leaders
- Opportunities to explore how your clinic or organization can contribute to national data initiatives
- Inspiration and insight to help shape the future of data-driven cancer care

What did the **Incomplete RT Data** say to the **Conflicting RT Definition**?  
"We don't align.... Does not compute!"
